RAM® Universal Double Ball Mount with Two Round Plates

ABOUT RAM® MOUNTS

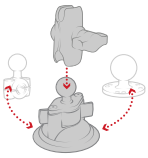

RAM® Mounts manufactures rugged and versatile mounting systems for phones, tablets, and other mobile devices that can be attached nearly anywhere. Unlike other mounts on the market, RAM® allows you to secure devices where you need them most. The unique design of the RAM® Mounts system provides quick installation, adjustability, strength, vibration damping, and durability—all at a low cost. Backed by a lifetime warranty, RAM® uses powder-coated, marine-grade aluminum with lightweight and high-strength composites, stainless steel hardware, and rubber balls.

THE RAM® DIFFERENCE

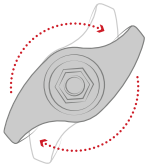

PREMIUM DESIGN

The rubber ball and socket design of our mounting systems offers a secure hold, with near-infinite adjustability and vibration damping for the most demanding environments. With thousands of components trusted by users around the world, we've been able to design and develop mounting solutions that consumers and companies previously only dreamed were possible.

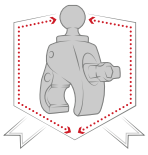

CUSTOMIZABLE

Take your phone mount from your truck to your boat, or mix and match components to create your ideal mount. Because of the modularity of the RAM® system, you can customize your solution to fit your specific needs in almost any application.

QUALITY MATERIALS

A premium design deserves the highest quality materials available, from rubber and stainless steel to high-strength composites and marine-grade aluminum. Our facilities— including powder coating, die casting, rubber injection molding, and shock and vibration testing—help us deliver on this promise to bring you inventive mounting solutions.

LIFETIME WARRANTY

It's simple. Our reputation as the leader of premier mounting systems means if we build it, then we guarantee it. We're confident in the quality of our products, and with our warranty, you can be too.

NATIONAL PRODUCTS INC. (NPI)

Introduced in 1995, National Products Inc. (NPI) quickly became the leading manufacturer of rugged and versatile mounting solutions. RAM® Mounts has grown to offer approximately 5,000 modular components—the most innovative product line of its kind for nearly any application and device, including phones, tablets, GPS systems, laptops, marine electronics, printers, radios, and much more.

In addition to RAM® Mounts, NPI is also the creator of award-winning IntelliSkin® sleeves and GDS® Technology™ products. IntelliSkin® sleeves ruggedize a wide range of consumer phones and tablets, while the GDS® Ecosystem™ provides users the ability to securely charge, dock, and sync devices in the most demanding environments.

NPI is proudly located in Seattle, Washington in the same neighborhood where the company was started.

PARTNER WITH RAM® MOUNTS

Here at RAM® Mounts, we believe that unfathomable things are possible with ingenuity. With a portfolio of more than 5,000 SKUs paired with innovative engineers and in-house product experts, we have the tools and expertise needed to create solutions that you didn't know were possible. We have the ability to solve your mounting challenges quickly, efficiently, and cost effectively.

HOW IT WORKS
DOUBLE BALL MOUNTS

Choose from a selection of holders, socket arms and ball bases to build a custom mount for your specific needs. Additional bases may be chosen so that your mount can support multiple devices, or can be transferred to alternate mounting locations.

1

CHOOSE A HOLDER
RAM® offers a wide selection of holders for your specific device.

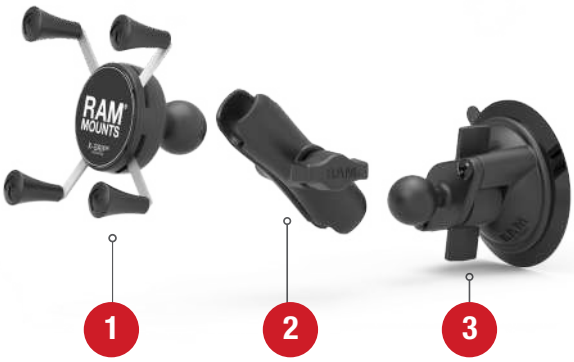

2

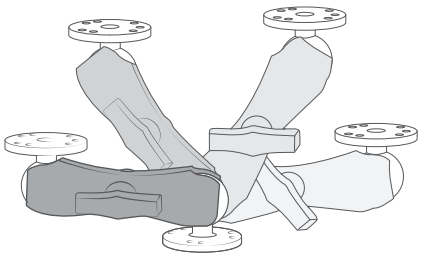

CHOOSE AN ARM
Select an arm based on your desired length and placement.

3

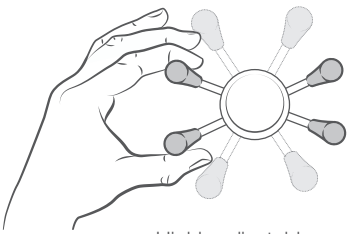

CHOOSE A BASE
Select from a variety of bases to help secure your device where you need it.

Double ball and socket technology allows for near-infinite adjustability of your RAM® mounting system

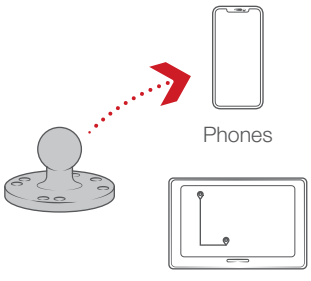

Highly adjustable

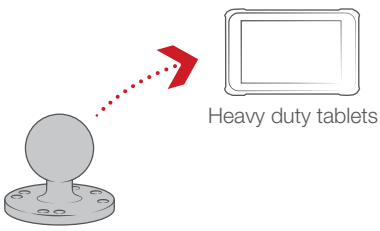

Vibration damping

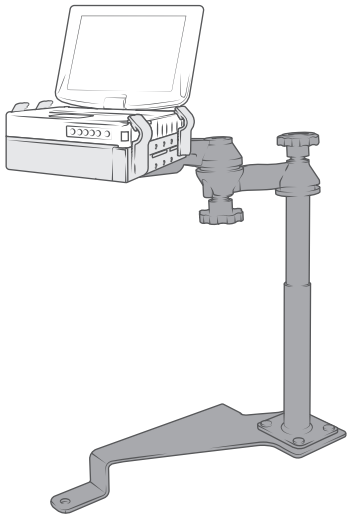

GENERAL RULE

B Size ball & socket mounts are recommended for handheld devices, phones, GPS, and small tablets

C size ball & socket mounts are recommended for larger, heavy duty tablets, and are used in the RAM® No-Drill™ laptop mounts

HOW IT WORKS

RAM® NO-DRILL™ VEHICLE MOUNTS

Vehicle mounting solutions from RAM® Mounts are the top choice for securing laptops, tablets, add-ons and more. Our No-Drill™ vehicle bases are easy to install using only the existing seat bolts to your specific vehicle. We have many vehicle bases to choose from that fit seamlessly in your specific car, truck, van or fleet vehicle—universal options for all other vehicles. These mounting solutions have become a popular choice for creating a mobile workstation or a hub for mounting multiple devices.

1

CHOOSE A TRAY/HOLDER

Select a tray/holder based on your device.

2

CHOOSE A RAM® TELE-POLE™ & SWING ARM

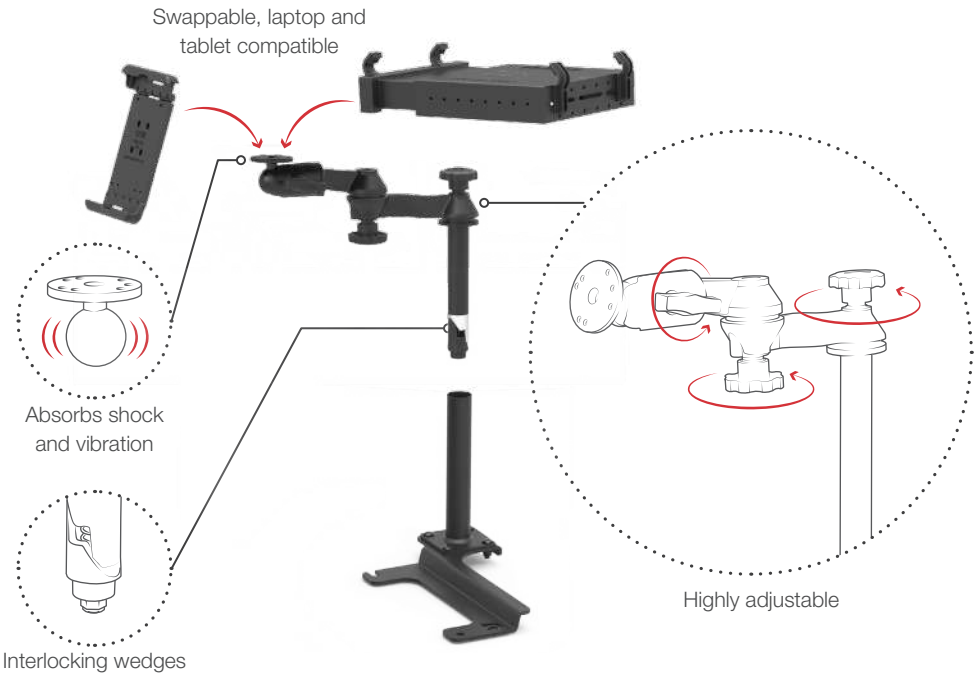

Select a RAM® Tele-Pole™ and swing arm that provides the correct amount of height and adjustability.

3

CHOOSE A BASE

Select a base that meets your installation and removal needs and fits your vehicle.

CAMERA ADAPTERS

Capture the best photos and video possible with the help of RAM® Mounts camera ball adapters, allowing for the perfect angle and a secure hold. Constructed with the highest quality materials, the RAM® ball design dampens shock and vibration so you always get the shot.
The GoPro® base adapter is specifically designed for GoPro® action cameras, this base adapter replaces the factory mount. Combine it with a RAM® Mounts arm and a two-pronged universal action camera adapter to allow for easily adjustable 360 degree rotation of your camera.

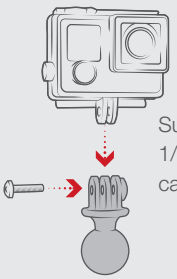

Rubber ball dampens shock and vibration

DASHBOARD MOUNTING

RAM® PORTABLE FRICTION DASHBOARD BASE & RAM® ADHESIVE DASHBOARD BASE

The Portable Friction Dashboard Base for Suction Cups is an excellent solution for mounting a suction cup system to your dashboard or anywhere with a textured surface. For those who do not want to attach objects to their windshields or do not wish to drill into their dashboards, this is the perfect solution for you. The weighted friction base simply sits anywhere on the dashboard requiring no installation, while keeping the mount and your device from sliding off the dashboard.

ELD MOUNTING

The ELD (Electronic Logging Device) mandate requires that every commercial truck operating on US or Canadian highways and roads must have an electronic logging device record HOS (Hours of Service). RAM® Mounts provides turnkey solutions to this mandate by offering complete bundles for ELD compliance.

SAMSUNG GALAXY TAB A 8.4 & TAB A 8.0 (2019)

Designed specifically for the Tab A 8.4 & Tab A 8.0 (2019), these bundles are all you need to become ELD compliant. Equipped with locking and non-locking features these bundles include a non-locking GDS® Tough-Dock™, IntelliSkin® Next Gen, hardwire charger, low-profile double ball mount with C size (1.5") ball & socket components, USB extension cable, backing plate adapter and two cable clamps. For added security and theft deterrence, the RAM® Pin-Lock™ socket arm is available.

FEATURES

7ft coiled cable keeps your device tethered in vehicle

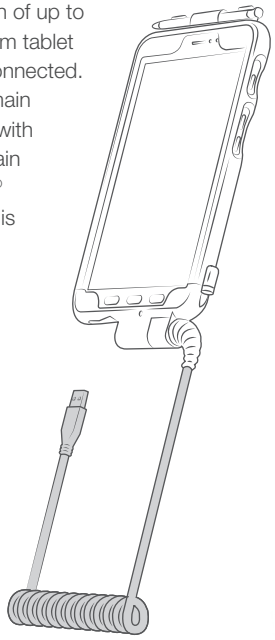

Oversized strain relief protects cable connection

Open enclosure on front and back allows heat to flow from device.

ELD MOUNTING
RAM® TOUGH-CASE™

The RAM® Tough-Case™ is a rugged two-piece enclosure with a built-in coiled power cable that tethers the device inside of any vehicle. This case allows you to create a hardwired connection to the tablet using a custom USB Type-C connector, with a stretch of up to 7ft which offers maximum tablet mobility while staying connected. Your connection will remain secured and protected with the use of oversized strain relief built into the RAM® Tough-Case™ making this the ideal ELD mounting solution for current Samsung tablets.

INTELLISKIN® & INTELLISKIN® NEXT GEN

IntelliSkin® is a protective sleeve for phones and tablets featuring GDS® Tech™ with pogo pin technology and military-grade drop protection. With an integrated GDS® connector molded directly into each skin and ruggedized docking contacts on each skin's exterior, IntelliSkin® is designed to extend the life of devices by preventing damage to the charging port from repetitive docking. IntelliSkin® Next Gen sleeves feature flat docking contacts that are easier to clean, as well as a design that combines the hard plastic shell with soft, shock-absorbing rubber.

RAM-GDS-SKIN-SAM54-NG
IntelliSkin® Next Gen for Samsung Tab Active Pro

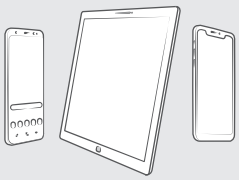

POGO PIN TECHNOLOGY
Protects your device ports from constant plugging and unplugging.

FEATURES

DROP PROTECTION
Having passed rigorous military-grade spec tests for withstanding shock and impact.

Supporting various phones and tablets including Samsung and Apple.

Secure your device and peripherals in any rugged environment; on site or on the go.

GDS® ERGO™

ACCESSORIES THAT GET THE JOB DONE

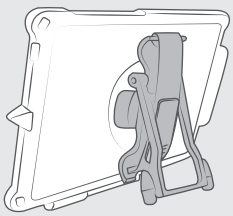

Take advantage of GDS® Ergo™ accessories like the GDS® Hand-Stand™ and shoulder strap to enable your tablet for field use. The GDS® Hand-Stand™ is a combination hand strap and kick stand that allows you to easily take your device from the warehouse to the office—and everywhere in between. With the shoulder strap accessory, quickly attach various IntelliSkin® sleeves using the snap hooks to comfortably carry your tablet.

In addition, the IntelliSkin® contact brush can be used to clean debris build-up on the GDS® contacts of IntelliSkin® sleeves. Performing routine cleaning of the GDS® contacts helps to maintain excellent performance and prevent any loss in functionality. An included adhesive pad can be attached to a variety of surfaces.

GDS® VIEW™

EXPAND THE CAPABILITIES OF YOUR WORKSTATION

The GDS® View™ 13.3" touchscreen monitor lets you take the PC experience on the road. Featuring VESA hole patterns compatible with the RAM-2461U and RAM-D-2461U mounting plates, create a mobile workstation that takes advantage of the GDS® Ecosystem™ for data sync and charging capabilities. The GDS® View™ monitor has undergone MIL-STD-810G 514.5 vibration and MIL-STD810G 516.5 shock testing, ensuring performance in the most demanding environments. This two-point capacitive touchscreen monitor allows you to pinch, zoom, and select—and includes an anti-glare and anti-fingerprint treatment. Control buttons on the front of the monitor are easy to access, while a red monochrome night mode helps to reduce eyestrain. In addition, two integrated 2W speakers allow for audio. Includes HDMI, VGA, and USB Type-B to USB Type-A cables.

SONIM BUNDLE FOR SONIM XP5S & SONIM XP8

The Sonim bundles are perfect communication hubs to enable the Sonim XP5s and XP8's Push-to-Talk functionality. Equipped with an audio amplification speaker, locking cradle and microphone, field service workers can use the PTT features of the Sonim device without having to fiddle with the device itself out on the road. Each bundle also includes a Pin-Lock™ knob for the socket arm as well as a key lock for the cradle, leaving your communication system free from theft. All connections are made possible through the custom RAM® Adapter Cable—a 6" highly shielded cable adapter that securely connects to the Sonim XP5s and XP8 "SecureAudio" contacts via pogo pins, using a threaded thumb fastener on one end with a ruggedized 3.5mm female connector on the other end. The 3.5mm female connector and audio control logic allow the use of the Sonim XP5s and XP8 handsets with headsets, microphones, PTT mic's and external speakers.

RAM® Motorcycle Handlebar Clamp Base with M8 Bolts

SURFACE MOUNTING
HANDLEBAR CLAMP BASE

This 1" rubber ball base will replace an M8 by 25mm, 30mm or 35mm handlebar bolt. To determine compatibility, measure the bolt length and add 30mm to the length. Screw the ball base onto the handlebar top clamp using one of three included 1.25mm thread pitch bolts: M8 x 55mm, M8 x 60mm and M8 x 65mm.

BOLT HEAD ADAPTER BASES

The versatile flat base – with a bolt-down area of 2.25” x .875” x .2” – includes a 1” diameter rubber ball and an 11mm hole. The angled base version also includes a 1” diameter rubber ball and a 9mm hole, and a bolt-down area of 1.18” x .75” x .2”. Both bolt head adapter bases are often attached to the mirror frame and fit well on exposed bolts.

ACCESSORIES & MORE

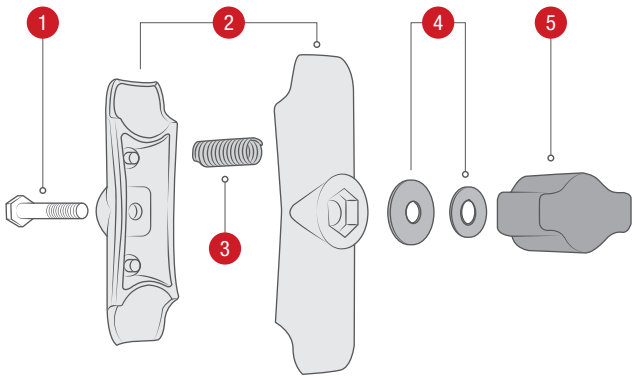

ARMS

Black arms available in short, standard and long sizes, RAM® Mounts B size double socket arms accommodate 1" ball bases. RAM® ball and socket technology allows for near infinite adjustability.

Almost all RAM® Mounts you've seen have likely been all black. But our chrome double socket arms—available only in B size (1") - are the perfect match for motorcycle handlebars.

The double socket swivel arm consists of two 1" open ball sockets with a 360 degree rotation point at the center of the arm. With the multi-pivot arm, a connected swivel joint rotates 180 degrees.

1. Center bolt bridges the gap between both halves of the socket arm
2. This socket technology allows for almost infinite adjustment and perfect viewing angles.
3. A single spring inside the arm opens the end sockets, allowing you to pivot the ball and socket connection.
4. Stainless steel and nylon washers ensure smooth and secure friction when tightening your mount.
5. High strength knob with brass threading keeps your mount tight for the long term.

RV/MOTORHOME

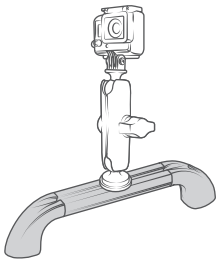

RVs and motorhomes are extensions of our normal home, on the road. RAM® Mounts can easily be rigged up all around the interior of any RV's or motorhome. Utilize the RAM® Tough-Track™ and drill-down bases to mount applicable devices and household objects to personalize your roadtripping experience. The RAM® Roller-Ball™ can be used as a broom holder while you can also mount a tablet under the cabinets for a home theater experience. RV's are where RAM® Mounts shine with imagination. There truly are no rules when outfitting your vehicle with device mounts.
